

Event Report

Event Name: Discover the art of Engineering

Date of the Event: 22nd September 2023

Duration of the Event: 2 Hour

Venue: Sandip University Campus(Seminar hall)

Name of the Event Coordinator: Prof Ajay kumar and Prof Onkar Yadav

Introduction:

On September 22nd, 2023, an enlightening event titled "Discover the Art of Engineering" was organized by Mr. Md Alaudin Ansari at the Seminal Hall, B.Ed Building, Sandip University. This event aimed to delve into the intricate world of engineering and provide students with valuable insights into the field. The seminar was attended by esteemed faculty members from the Civil Engineering Department, along with enthusiastic students.

Objective of the Program:

The primary objective of the "Discover the Art of Engineering" seminar, organized by Mr. Md Alaudin Ansari on September 22nd, 2023, was to provide students with a deeper understanding of the creative and innovative aspects of engineering. The program aimed to achieve the following objectives:

- **Highlighting the Artistic Side:** To showcase the artistic elements that underlie the engineering discipline, demonstrating that engineering is not just about calculations and formulas, but also about creativity, design, and innovation.
- **Faculty Interaction:** To provide students with an opportunity to engage with experienced faculty members from the Civil Engineering Department, gaining valuable insights from their expertise and experiences in the field.
- **Inspiration and Perspective:** To inspire students to approach engineering with a fresh perspective, encouraging them to explore the creative dimensions of the discipline and apply innovative thinking in their future endeavors.

Outline of the Program:

- The event commenced with a warm welcome extended to all attendees. Participants registered and were provided with event materials.
- Mr. Md Alaudin Ansari initiated the seminar with an insightful presentation on the artistic aspects of engineering. He emphasized the creative and innovative elements that underlie the engineering discipline.
- He discussed different job opportunities in engineering in government private and different sector in which student can flourish their respective bright future.
- He created a question answer round environment in seminar hall
- A lively interactive session provided an opportunity for participants to engage with the speakers and ask questions. Faculty members and Mr. Ansari addressed queries and encouraged students to explore the artistic side of engineering further.

- In last he given a puzzle problem to solve and give the idea that how competitive exam ask question and examiner play with the mind of student.
- A vote of thanks was given Dr.pappu kumar from civil engineering department.
- In the last registrar sir Nausherwan Raunaque also given valuable words to the student and get stunned with the strength of the students present in seminar hall.
